

## HOME GROWN

We couldn't wait to share a sneak preview of the third *Homes & Gardens* collection of fabrics, trimmings, cushions and rugs in collaboration with Baker Lifestyle. 020 7351 7760, [gpjbaker.com](http://gpjbaker.com) – see our February issue for the official launch. Inspiration came from the striking geometric designs and richly coloured palette found in Spain, Sicily and North Africa, all part of the visual heritage left by the Moors. From deep shades of blue with touches of spice to multicoloured patterns incorporating fuchsia and stone, the distinctive designs will inspire a range of stunning interiors.

## EARTHY TONES

Artist Rachel Dein's six-metre hand-cast plaster mural featuring flowers and leaves from London's Green Park is part of the exquisite interiors at Hide, 020 3146 8666, [hide.co.uk](http://hide.co.uk), the new restaurant from chef Ollie Dabbous and Hedonism Wines. Created by design studio These White Walls, the interior combines a restrained palette, rustic timbers and bronze to create an atmosphere of organic earthiness that reflects the raw and botanical style of cooking.
